

Improve Hand Hygiene

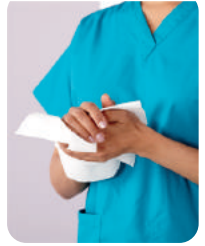

NORTHWOOD

'On average we carry 3,200 bacteria from 150 different species on our hands'

University of Colorado

The World Health Organisation say, **'Single use paper towels are the most hygienic way to dry your hands'**

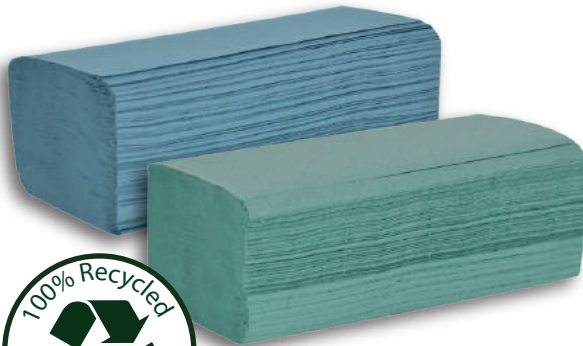

The NHS tells people to **'Dry hands with a disposable towel, before using the towel to turn off the tap after washing'**

'Hand dryers spread bacteria'

University of Leeds

Introducing Our New Hand Towels

Z-Fold Hand Towel

Product Code	Ply	Colour	Width	Length	Sheets	No. of Sleeves
H1BZ30	1	Blue	230mm	240mm	200	15 Sleeves
H1GZ30	1	Green	230mm	240mm	200	15 Sleeves

Interleaved hand towels dispensing one at a time

Z-Fold Hand Towels are compatible with our hand towel dispenser - **DCPHTW**

- Single sheet dispensing, user only touches the paper that they will use
- Towels are enclosed protecting them from the washroom environment
- Easy to wipe clean with viewing window for replenishment checks
