

## North Shore rolls out across Abbey Multi Academy Trust after Bishop Young Academy washroom efficiency increase

After impressing at the Bishop Young Church of England Academy, The Abbey Multi Academy Trust installs the North Shore Orbit system across all sites.

The demands of washrooms in the education sector are high. Dealing with high footfalls in small timeframes, needing to be robust, easy to use and ensuring high efficiency, low cost and low waste. Meeting such high demands is no small feat.

Blu Hygiene, washroom specialists, presented the Orbit dispenser to the Bishop Young Church of England Academy, with its 4-roll, 2,500 sheet 2 ply capacity, made from durable ABS plastic and the ability to be replenished without risk of run out or waste.

The results were immediate. The previous tissue product brought issues of stub waste and collapsing rolls, but with the Orbit dispenser the frequency of replenishment decreased and the infinity paper system ensures rolls are fully used before moving on to the next. With the Orbit dispenser holding more than twice as many sheets as the previous product, product availability has increased meaning student satisfaction has increased. This also resulted in a reduction in dispenser replenishments, meaning school cleaning staff can focus on other tasks.

After a successful implementation, the North Shore system has since been rolled out across all sites within the trust.

The Abbey Multi Academy Trust team commented:

“ We changed from centrepull toilet tissue to the North Shore Orbit carousel dispenser system and found that we save time by replenishing dispensers less frequently. We take delivery less frequently because the case quantity was higher, which far better suits our needs.

More importantly we waste less paper because the dispenser design means there is no stub roll waste. Overall, it allowed us to be more efficient and definitely more sustainable. ”

### Key Points

**Customer:** Bishop Young CofE Academy, part of the Abbey Multi Academy Trust

**Facilities:** School washroom facilities servicing pupils and staff

**Purchase Driver:** Improved operational efficiency & waste reduction

**Previous Product:** Centrepull tissue

**North Shore Product:** Orbit tissue dispenser & 2 ply recycled tissue

**Results:** Reduced waste, reduced servicing requirements & increased product availability
