LINDEN LODGE SCHOOL IMPROVES HYGIENE WITH A QUALITY COMPLETE WASHROOM SYSTEM

Linden Lodge - a special educational needs school - were looking to upgrade their washroom dispensers to improve the quality and overall look of their facilities. They also wanted to be mindful about cost, so when London Catering & Hygiene suggested the North Shore washroom system, which also boasted hygiene improvements the decision was made.

Due to the nature of the school, dispensers needed to be easy to use and were situated in both washrooms and classrooms. They were previously using bulk fill soap dispensers which regularly blocked, crystallised and were harbouring bacteria and not a hygienic solution, the North Shore soap cartridge system offered an easy and much more hygienic solution for this problem.

Linden Lodge commented,

'Previously, we were buying from multiple distributors which added complexity to our ordering. The North Shore system offers all products to cover our needs which has not only reduced cost but also administration. The dispensers look great and fitting was fast and professional, plus hygiene standards have been improved.'

Key Points

Customer: Linden Lodge

Facilities: Special Educational Needs School Washroom

Purchase Driver: Looking for a high quality, uniform system

Current Product: Bulk Fill Soap & Towel Tissue

North Shore Product:

Results: Great looking washrooms & better hand hygiene
